Inflation Guard

Effective
New Business: **August 1, 2021**
Renewal Business: **November 1, 2021**

If a home is not insured to value at the time of a covered loss, the co-insurance penalty may be triggered possibly impacting your Errors and Omissions.

Therefore, we are **adding Inflation Guard to all new policies.**

We will also be **adding the inflation guard to all renewals and increasing coverage this year by four per cent.**

Exceptions: nonstandard policies, mobile homes, homes under renovation, vacant or unoccupied homes.

Please feel free to contact us with any comments or concerns and we will work with you.
